Cancer Stem Cells - ovid.com

Presents a consolidated account of the research done to date and recent progresses in the studies of cancer stem cells. Because the concept and discoveries of cancer stem cells are relatively new, scientists and researchers need an introduction to this dynamic area.

Stem Cells & Cancer India 2018

Dr. Sharmila Bapat is a group leader of the Ovarian Cancer Program at the National Centre for Cell Science, Pune, India and has to her credit the first report on the isolation and identification of cancer stem cells in ovarian cancer. More recently she has been integrating basic biology with computational approaches to elucidate resolution of tumor heterogeneity and systems based network.

Bapat S.A: Cancer Stem Cells Basics, Progress and Future ...

Combination of two or more of these methods for validation of cancer stem cells appears to be a promising approach for the precise isolation and analysis of cancer stem cells. However, a major limitation for research in the field of stem cells and CSCs has been the lack of research resources in the form of in vitro models for these studies.
