Cultivating Health, an interdisciplinary chronicle, details women's impact on remaking health policy, despite the absence of government support. Combining primary source and municipal archival research with comfortable prose, Jennifer Lisa Koslow explores community nursing, housing reform, milk sanitation, childbirth, and the campaign against venereal disease in late nineteenth and early twentieth century Los Angeles. She demonstrates how women implemented health care reform and civic

Jennifer L. Koslow | Department of History

Prof. Koslow's Cultivating Health: Los Angeles Women and Public Health Reform (New Brunswick, N.J.:

University of Rutgers Press (2009) explores why women, instead of city officials, took charge of public health. It looks at how women used science and maternalism to argue for an expanded role for government and citizen action. In addition, the book analyzes how negotiations within homes

Koslow demonstrates the value of local experiments in

reform as models for national reform, speaking specifically to the present national debate on health care reform. She examines the development of public health nursing, housing reform, food safety, obstetrical services, and venereal disease control, detailing the role of women's reform efforts in each. These efforts occurred in the face
