But such conflict can be minimized, say the editors of *Optimizing Health*. Answering elusive questions on how quality emerges in medical care, Franz Porzsolt and Robert Kaplan synthesize findings from closely interrelated aspects of clinical practice, clinical epidemiology, health economics, psychology, and ethics. The resulting systems perspective of this timely book merges thinking from clinical medicine and economics to form the hybrid term "CLINECS". The book challenges readers to rethink **Optimizing Health: Improving the Value of Healthcare Delivery**
