ENVIRONMENTAL QUALITY AND THE GAINS FROM TRADE - Siebert ...

The paper analyzes the trade-off between environmental quality and the gains from trade. For a world with pollutants as a joint product of output it is shown that gains from trade by exporting a pollution-intensively produced commodity are accompanied by a loss of environmental quality and that improving environmental quality will

adversely affect the gains from trade. The paper analyzes with

Abstract. This paper considers the dynamics of an international market for a renewable resource. On the supply side there is a large number of resource-exporting countries, intertemporally optimising their resource extraction paths at given prices.

(PDF) Trade and Environment. A Theoretical Enquiry

In this context, in which the traditional trade theorems can be applied (Siebert et al. 1980, Siebert 1995, Rauscher 1996 ), trade and investment flows are a mechanism by which differences in
