Who Are We? Microbes The Puppet Masters! - Yuan Kun Lee ...

Our genome is littered with scraps of DNA, termed "junk" DNAs, that serve no apparent purpose. Junk DNAs make up as much as 98.5% of our genome. Scientists believe that some junk DNAs came into existence millions of years ago, when viruses inserted their DNA into that of the human host. There is...

We have been invaded by body snatchers and they are part of us! This thought-provoking and inspiring book offers many answers, while at the same time raising many questions for future research.

Who Are We? Microbes, The Puppet Masters!

We have been invaded by body snatchers and they are part of us! We could postulate that we are carrying a large number of DNAs that serve only the DNAs, and we are just a small part of the big picture! There is ample scientific evidence to suggest that, even today, free-living

microbes are still manipulating our behaviour and our life at large. They are thriving on our wet skin, in our
